

Beijing Economic-Technological Development Area

Situated in e-Town (Yizhuang) of southeast Beijing, China, Beijing Economic-Technological Development Area (BDA) serves as the only state level economic and technological development area that is entitled to dual favorable policies for both state level economic and technological development area and state level high-tech industrial park.

BDA started its constructions in 1992 and was approved by the State Council to be the only state level economic and technological development area in Beijing on August 25, 1994. In June of 1999, following the approval of the State Council, a seven-square kilometer area within BDA was designated as e-Town Science Park of Zhongguancun Science Park(Z-park), which enabled BDA to enjoy dual policies of state level economic and technological development area and state level high-tech industrial park. On January 5, 2007, Beijing Municipal Government ratified Plans of e-Town New City (2005-2020) and stipulated clearly that e-Town New City with BDA as core functional zone was an important joint place in the east development belt of Beijing and one of the key new cities for further growth.

To become a top industrial park oriented to international market, BDA adheres to the development thoughts of centralized industries, intensified resources, optimized environment, specialized services and legalized management and endeavors to introduce high-end high-tech industries with high-added value, strong radiometric force, low energy consumption and low pollution by focusing upon attracting key projects and leading enterprises. Currently, four pillar industries, namely, information communication technology industry, bioengineering and new medicine industry, auto industry and equipment manufacturing industry, have taken initial shape. Upon the requirement of concentrated growth of main industries, BDA promotes vigorously the development of the following industrial clusters: ICT industrial

cluster with Nokia as the leading enterprise, monitor industrial cluster with BOE as the leading enterprise, micro-electronic industrial cluster with SMIC as the leading enterprise, medical equipment industrial cluster with GE as the leading enterprise, biopharmaceutical industrial cluster with Bayer as the leading enterprise and auto industrial cluster with Daimler Chrysler as the leading enterprise. In addition, the progress of BDA's productive and high value-added service industries is accelerated and the regional industrial structure continuously improved.

Up to now, more than 10,000 enterprises from over 30 countries and regions all over the world have entered BDA with total investment exceeding 80 billion US dollars(Y2014), over 70% of which are from foreign-invested enterprises. A large group of world-renowned enterprises such as Benz-DaimlerChrysler, Nokia, GE, Bosch, Corning, Kimberly-Clark, LG Chem., Cummins, Bayer, ABB, Panasonic, Schneider, Delphi, Aventis, SMIC and BOE have made investment here and set up factories.

In accordance with the goal of growing into an international top-ranked industrial park, BDA is striving for constructing itself into China's most attractive industrial base by ceaselessly optimizing local investment environment, improving infrastructure facilities and supporting service functions as well as raising the standard of government services and industrial development.

Four Pillar Industries in BDA

I. **Information Communication Technology Industry** is the most intensified cluster and most powerful industry in BDA. BDA has established Nokia Xingwang Industrial Park, the first 12-inch IC production line in mainland and was awarded as a state-level Electronic Information Technology Park. BDA has formed several industrial clusters: ICT industry with Nokia as the leading enterprise, monitor industry with BOE as the leading enterprise, micro-electronic industry with SMIC as the leading enterprise.

II. Bio-engineering and New Medicine Industry BDA enjoys a reputation as “Medicine Valley” in Beijing featuring in innovation and scale benefit and consists of many famous foreign and domestic bio-engineering enterprises. It is also the national biomedical industry base evaluated by National Science and Technology Ministry. At present the biomedicine industry in BDA has shaped four sub-industries with a preliminary scale: medical devices manufacture industry, chemical medicine and traditional Chinese medicine manufacture industry, biopharmaceuticals R&D and manufacture industry, and CRO services industry. BDA gathers many famous enterprises, including GE, Bayer, Shimadzu, Aventis, Daiichi, Tongrentang, Pharmaron-Beijing and SinoGeoMax, etc. The sales volume of biomedicine industry and medicine devices in BDA accounts for 40% and 80% of the total sale volume in Beijing respectively.

III. Auto Industry started with the foundation of new workshop of Beijing-Benz DaimlerChrysler Automotive Co Ltd. BBDC first established a 300 thousand sq.m. workshop which enables its annual production reached 100 thousand cars and will achieve the goal of 300 thousand cars annually in the future. The entering of Delphi Auto, Cummings and NORSTAR Auto provide impetus to the future development of auto industry in BDA.

IV. Equipment Manufacturing Industry covers over 18 industries with about 80 enterprises, including micro-electronics, NC machine, printing machinery, intelligent instrument, electronic special equipment, laser technology and robot. The fast development of Bosch Rexroth, Schneider, ABB, Corning Cable and SMC promote the level of equipment manufacturing in BDA.

Besides, the following four industries are of prior development in the future.

- Digital TV Industry
- Green Energy Industry
- Cultural Creativity Industry
- Aviation Industry

BDA also endeavors to develop the production service industry and financial service industry. BDA enjoys a perfect environment for investment and is the best place for headquarters, R & D centers, marketing centers, settlement centers, logistics centers, asset management companies, venture capital companies, etc.

Join us, and the BDA will create a splendid future with our vision of
“Embracing the world and challenging the future”.
